INTRODUCING DOING IT TOGETHER SCIENCE - AN EU CITIZEN SCIENCE PROJECT

Muki Haklay, Director, ExCiteS (Extreme Citizen Science), University College London, UK

MEMBER STATE PERSPECTIVE ON CITIZEN SCIENCE

EU CITIZENS AGAINST GLOBALISED MOSQUITO-BORNE DISEASES

Dr. John Palmer (UPF), Mosquito Alert (CREAF, CEAB-CSIC), Spain

17.00 – 18.00

**PANEL DISCUSSION – CITIZEN SCIENCE SUPPORTING EU POLICY
HOW CAN CITIZEN SCIENCE BE BUILT INTO EU POLICY DELIVERY**

**Moderator: Marc Lipinski, Research Director CNRS, France – A Citizen Science leader
Supported by Gaia Agnello & Aleksandra Berditchevskaia, Project Officers EU DITOs**

Panel Members

Michèle Rivasi

Professor Jacqueline McGlade

Muki Haklay

John Palmer

Martin Brocklehurst

CITIZEN SCIENCE IS EXPANDING AT BEWILDERING SPEED ACROSS THE GLOBE

The European Citizen Science Association (ECSA) has grown from an idea to a thriving organisation with representatives from most EU countries in less than three years with key global links established with homologs in the USA, Australia and New-Zealand.

Technology is opening up exciting possibilities for ordinary people to do extraordinary things as they work with scientists across the environmental policy areas and beyond.

Sponsored from the White House, the USA are building Citizen Science into US Policy Delivery through the main Federal Agencies and enhancing the connections between citizens and environmental, health and a wide arrange of other policies.

This is a chance for MEPs to meet some of the leading practitioners driving Citizen Science Forward in Europe and to debate and discuss how Citizen Science can help reconnect EU Citizens with the work of the Commission and EU Parliament if the right tools and techniques are put in place as legislation is drafted. Come and meet some of them.
