

## QUESTIONNAIRE

### TWO (2) RESEARCH TECHNICIANS FOR *FORGENIUS* PROJECT (ref. 20-038-33739)

To participate in the selection process, candidates must answer and send the following questionnaire:

| Questions  | YES | NO |
|--|-----|----|
| Do you hold a Degree in Biology, Forest Sciences, Environmental Sciences, or equivalent?   |     |    |
| Do you have expertise in using the basic analytical tools employed in ecology (data management, statistics)?   |     |    |
| Do you have knowledge of English?  |     |    |
| Do you have willingness to travel and enthusiasm for fieldwork in ecology?   |     |    |
| Do you have experience in carrying out field protocols involving sampling of plants under field conditions?  |     |    |
| Do you have expertise in taking eco-physiological measurements and using the corresponding scientific equipment under laboratory conditions (the balance between these two last requirements is likely to change for the two positions)? |     |    |

It will be assessed in a particularly negative way that it is affirmatively the possession of requirements that subsequently prove that they are not.
