

QUESTIONNAIRE

POST-DOC. RESEARCHER FOR THE LOCOMOTION PROJECT (ref. 19-041-17710)

To participate in the selection process, candidates must answer and send the following questionnaire:

Preguntes	SI	NO
Do you have a PhD in Environmental Engineering or similar?		
Do you have demonstrable experience in modeling of dynamic systems in the field of energy?		
Have you previous participation in European projects?		
Do you have the ability to disseminate scientific results?		
Do you have availability to travel to attend project meetings?		
Do you have advanced level in Python programming language (Pandas, Xarray, Parsimonius, Jupyter notebook, SciPy, etc.)?		
Do you have experience in using version control systems (Git)?		
Do you have experience with Linux/Mac/Windows?		

It will be assessed in a particularly negative way that it is affirmatively the possession of requirements that subsequently prove that they are not.
